

# Installation [tutorial](#) for [Toxic Biohazard Presets](#) In FL Studio (Step By Step)

Hello!

Thank you for downloading the [Toxic Biohazard Presets](#) from [Music Sensation!](#) Here's how to install these presets step by step:

1. Download the zip archive from this address:

<https://themusicsensation.com/fl-studio-samples/>

2. Open the folder that contains all your [Toxic Biohazard presets](#).

3. Usually, the folder address looks like this: C:\Users(your computer username)\Documents\Image-Line\Toxic Biohazard\ The first letter "C" is the drive where you installed your [FL Studio program](#). It could also be "D," depending on where you installed it.

4. After that, search for the folder with your computer username. Navigate to the following folders: Documents -> Image-Line -> [Toxic Biohazard Presets](#).

5. Paste the downloaded zip file inside this folder and extract the contents to a specific folder (you can rename this folder if you wish).

6. Open your [FL Studio program](#).

7. [Open a new pattern](#).

8. Insert the [Toxic Biohazard VST](#).

9. Click "Load" and select the preset you want to use.

10. Click on the folder where you saved the presets.

Test out these presets and have fun! You can follow me here.
